Run 1885 – 1/5/23

Hare: Short n Curly – Location: Taren Point

## Starters Gun

May 1 (May Day) was a beautiful sunny autumn day Sydney wide until around 5pm when one big angry cloud decided to dump its contents on Taren Point ... to try and obliterate ShortnCurly's delicately drawn arrows... many of the usual suspects arrived and assembled in the Club or the Club's car park.

## Circle Report

Taren Point attracts birdwatchers from all over the Shire.

Keen birdwatchers like Merkin usually are found loitering near Cronulla beach looking for the Giant Booby, the Sandy Tit or elusive Swallow.

Venturing to Taren Point the bird watcher would be rewarded to see birds such as;

Latham's Snipe (*Gallinago hardwickii*) and the Greytailed Tattler (*Heteroscelus brevipes*).

The official bird of B2H3, the Swamp Harrier (*Circus approximans*) is also found at Taren Point.

The Swamp Harrier is a long- legged medium sized bird with long narrow wings. The adult has varied plumage, with a prominent white rump. The juvenile is darker below. It breeds in reed-beds, and occurs mainly in swamps and wetlands, much like the Harriette.
