

Convict Trash

Run 1899 - 7/8/23

Hare: Ringless – Location: Kirrawee

Starters Gun

B2H3 assembled in the station carpark at Kirrawee ... a damp and cold evening. Blondie executed a precision parking of the bucket. (Sir Les while you are on the road you will have ample time to practice your parking skills ... rear to kerb, front to kerb, parallel, angle etc.). Numerous black and yellow clad Hashers were observed flapping their arms near the Sodium Lights... to keep the area well lit we were informed. And we were introduced to Maddy.

Circle Report – Hannibal

A new member arrived for our Kirrawee run. Maddie is welcome anytime. She is polite, friendly and does it doggy style.

Maddie didn't make it into the restaurant, I wonder why?

Kirrawee continues to amaze and bewitch us.
