

Convict Trash

Run 1903 - 4/9/23

Hare: Grewsome – Location: Jannali

Starters Gun

The bucket mobile was well loaded and left Mascot heading south. The first few blocks were unusually quite ... then the Airport Tunnel area was not ... but with a good tail wind and Blondie's increasingly heavy foot it arrived with three minutes to spare. Sniffer was welcomed back after weeks away with a map of a run some time ago at Ramsgate and it had no markings on it.

Circle Report

Jannali is the most diverse part of the shire, inhabited by legends including Ray Martin, Bill Collins, Sir Les, Meltdown and Clive James.

There is a gentleman's health centre next to the restaurant that must be doing it tough with a certain legend away on his outback route.

Apparently there used to be a top-notch squash centre in Jannali. It has gone but there is plenty of first-class hash territory to explore.
