

Convict Trash

Run 1889 - 29/5/23

Hare: Dish – Hillsdale

Starters Gun

Already dark by 6pm ... parking not easy ... then heard that our two youngest runners on their journey to the run tonight became a little concerned when they found out their destination was Hillsdale. Hope the residents will be fine with B2H3 renaming the suburb Dales Hill ... due to the lack of significant inclines.

Run Report – Grewsome

The run weaved its way around Heffron Park Maroubra, which was well lit showing off all the playing fields, all being used. The only hill was covered three times, using the stairs twice. The pack were kept together.

Score : 8.5 + .5 (it did not rain)

Circle Report

Hannibal – Hillsdale a silver tail suburb.

Wikipedia – Hillsdale according to the 2016 census ... housing is primarily units and flats, with very few detached households. More than half of the households rent, a significantly higher amount than the Sydney average.

Prickette

- **Grewsome – Slottie = after 35 years of Hashing we had to wait for fifteen minutes for her arrival to the bucket.**
- **Grewsome – Slottie = in 1990's the bucket started at 7.30pm so Slottie was on time.**

Prick

- **Slottie – Doublebanther = had problems opening a gate to a small park ... when it just needed a gentle push.**

And our winners this week are Slottie and Doublebanther.
