

Convict Trash

Run 1937 - 6/5/24

Hare: Goldmart – Location: Hillsdale

Starters Gun

The Weather Gods were smiling on Goldie today. The constant rain ceased long enough for a trail to be marked and a run to be had without anyone being soaked. Tonight, the first of our year of your birth runs has commenced, hopefully all will be celebrated with a fine wine or a suitable alcoholic beverage.

1937 - Meltdown - Marsanne

Marsanne thrives in moderate to warm climates and is known for lemon, stone fruits, lemongrass, lime, and honeysuckle notes.

Run Report

Run Reporter: Blondie

*a well set run, considering the rain, out came the sun and a trail was marked

*kept the pack together until the Aquatic Centre and I had a fall

Score: 9/10

Circle Report: Cold Duck

Hillsdale

*the name is not Aboriginal – named after a politician - Pat Hills, Deputy Premier of NSW in the mid 1960's. He must have had something on senior politicians to get a suburb named after himself.

*as a minister he was credited with the building of the Sydney to Newcastle freeway, the Gladesville Bridge and the Erarang and Bayswater Power Stations

*he was Chairman of the Sydney Cricket Ground Trust for twenty plus years

*Hefferon Park, a huge sporting precinct is within the suburb of Hillsdale – it now includes the Rabbits Centre of Excellence – well that's not working well!

*Hillsdale was once part of Matraville – Dirty Weekends home for many years until the mid 1960's

*Hillsdale is known to have a lot of Housing Commission units

*there are 5,500 residents who call Hillsdale home – only 40 percent were born in Australia – next highest??? Bangladesh 5.8 percent of the population

*average Unit price \$690k
