Run Review by Bingo

My Run report was just so wonderful last week, Grewsome asked me to do it again this week, but gave me some notice this time so I could take more notice of the surroundings.

We set off on the first of the mad woman's loops, for one of the flattest runs. The run was very well marked, a whole lot of arrows, though the Hare missed some great opportunities to run us through water or mud, or into the sea.

We were especially well looked after by the Trail Masters Grewsome and Scotch Mist, loyally leading the pack. Truly deserved a score of 9 out of 10.

RA's Report – Ramsgate

- Named after the Seaside resort in England
- The whole area between the Cooks River near the Airport and the Georges River, near Captain Cook Bridge, was known as **“Seven Mile Beach”**, and in 1874, was changed to **“Lady Robinson’s Beach”** named after the wife of the Governor of NSW, Sir Hercules Robinson.
- He had an interesting name so I did some research
- He led a very distinguished career – he had the title of **“Lord Rosmead”** he was Governor of Hong Kong, South Africa, Ceylon, Fiji and St Kitts.
- There is a bust of him in Crown Street in Sydney, and there is a carving of him on the GPO Building in Martin Place
- **Scarborough Park** that runs through Ramsgate and the much of the St George area was once **Patmore Swamp** – it was turned into Parkland in the 1830’s. It was named after a Ship from the First Fleet – The Scarborough.
- It is a very small suburb – only 1,100 residents with 64% being born in Australia
- Average House price \$1.8 Million

In a recent survey, the “end of Youth” was considered 54 years old, on average, but that number moved up with the age of the respondents.

Wrinkles should merely indicate where smiles have been.
